

# Origin Green Verification Scoring Appeal 2026

## Origin Green Verification Scoring Appeal – 2026

The below guidelines outline the process for appealing a score within an Origin Green Verification Report. Where a member feels it has been scored incorrectly during the verification process, the company will be entitled to **one** official recheck within a given year for the particular target area(s) in question. Members will have 20 working days from the date they received the initial verification report to submit an appeal.

Please note that this document and respective procedure is only relevant to **2025** annual review submissions.

### **Step 1:**

Before requesting an appeal of a target(s) credits score, the member is advised to comprehensively review the Origin Green Verification Report it has received and the [Origin Green Verification Scoring Guidance document](#).

### **Step 2:**

The member must complete the below table before the appeal form is sent to the Origin Green team. Please select the target area(s) from the drop-down list below, as appropriate, and provide commentary as to why the recheck is merited. If the member is requesting consideration of evidence that was not previously included within the Origin Green annual review, supporting documentation and evidence to support this claim will be required.

<b>Company Name</b>	
<b>Address</b>	
<b>Client Contact</b>	
<b>Plan &amp; Annual Review Number</b>	

<b>Which target area does the query relate to?</b>	<b>Member issue(s) and justification for recheck</b>

### **Step 3:**

This form, alongside any supporting evidence, should be sent to [origingreensupport@bordbia.ie](mailto:origingreensupport@bordbia.ie). The appeal request will be assessed by the Origin Green independent verifiers. If further information is required, the verifiers may contact you directly. Appeals will typically be completed within 20 working days from the date the form was received by the verifiers.
